Partnering with CEP

CEP makes the partnership process easy. We can work with your organization to develop and prioritize survey themes, we handle all survey administration and communication, and we share the results in an interactive online report that allows your organization to see how different groups of members responded. We summarize our analysis of quantitative and qualitative responses in a memo of key findings and recommendations and can work with your leadership team and staff to help you act on the results.

“The Advisory team worked hand in hand with our staff, helping us to tease out exactly which questions we needed answered. They took the time to get to know Philanthropy New York, understand our services, and develop a tool that helped us hone in on our goals. The process was, for us, as important as the outcome. And, the report is one we use regularly when we think about how to direct resources and develop new programming.”

– Kathryn O’Neal-Dunham, Chief Operating Officer, Philanthropy New York
